## Latin Resources to discuss highly prospective Peru heavy mineral projects at One2One Forum in Sydney

Latin Resources (ASX: LRS) is focused on advancing the world class potential Guadalupito Iron Sands Project in northern Peru, as well as accelerating exploration activity on tenements covering 110,000 hectares in the Ilo district of southern Peru.

The companys flagship Guadalupito Project has a maiden JORC Resource of 119 million tonnes at 5.7% Heavy Minerals, released in December 2011.

Latin is focused on upgrading this resource, and in March announced an increase in strike length to 28 kilometres after identifying new elevated heavy mineral and gold content.

Meanwhile, Latin and Hong Kongs Junefield Group have begun a highly anticipated maiden drilling program at the companys Mariela Iron Project in the Ilo district of southern Peru.

The region has become one of the "hotspots" for copper discoveries and is a renowned iron oxide copper gold district which should see lightly capped (\$37 million) Latin Resources being watched closely now that drilling has begun.
